

Hot Stamping Machine

High performance hot stamping machine

The T-120-L & T-230-L are powerful machines for hot stamping of single-plates or wide plates. Various innovations not only make these machines more efficient, but also increase the work-safety. The hot stamping machines require less than a square meter of space. They provide a high hot stamping quality together with a safety level that exceeds the CE regulations for work safety by means of integrated rotation monitoring. The low weight of the machines makes installation easy. These machines are state of the art and guarantee maximum safety.

Advantages:

- Cutting-edge and efficient
- High safety level
- Simple handling
- Compliance with CE regulations

Type	T 120L	T230L
Dimensions (WxDxH)	910 x 500 x 600mm	1130 x 670 x 800mm
Weight	Approx. 60 Kgs	Approx. 125 Kgs
Stamping Width	Up to 120 mm	Up to 230 mm
Voltage	AC,230V, 50Hz, 1 phase, 2kW	AC,230V, 50Hz, 1 phase, 2kW
Stamping Speed	2,1m/min.	2m/min.
Temperature Range	Up to 230°C	Up to 230°C
Security	Speed monitoring of hot stamping speed, electronic temperature control
