

Security Plate Shredder

Secure destruction of license plates

The Security Plate Shredder can shred any type of license plate, with up to 1 mm in thickness. Expired license plates cannot be misused and can be destroyed immediately. Produced metal scrap is very compact, without sharp edges and easy to handle. The Security Plate Shredder is the ideal machine for registration offices and counters, due to its low noise level, durability and superior German quality.

Advantages

- Highly durable
- Superior quality
- Low noise level

Technical Data

Dimensions (LxWxH)	1020 x 540 x 590 mm
Weight	102 Kg
Cross Cut Particle Size	4 x 40 mm
Working speed	Approx. 5 sec / plate
Electrical Specficaton	230V/ 50 Hz / 1 phase
Power Consumption	1,6 kW
Features	Thermal Motor Protection, Open Door Safety Switch, Full mobility through roller Automatic Oil injection, Cutter Spindle made of hardened steel
